

Zephyr
AVIATION

HISTORY

Backed by over 50 years in the aviation and airline industries, Zephyr Aviation's experience and expertise translate into dependable, competitively priced air services for both corporate and government entities.

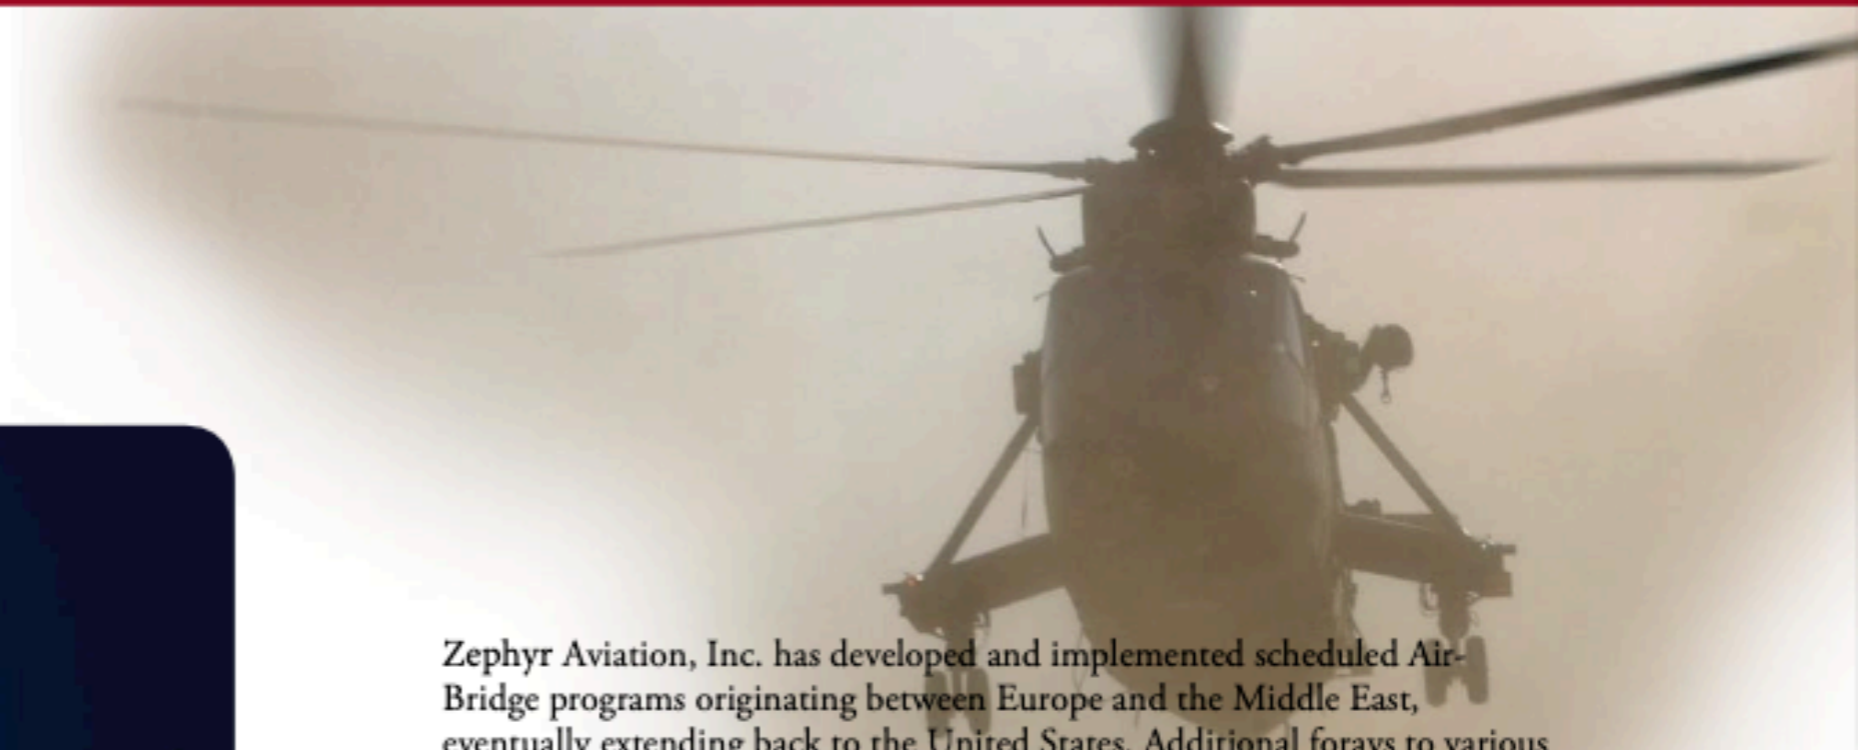

This history includes operation of several international aviation companies that supply diverse aviation services and aircraft to various U.S. government agencies, the Executive Office of the President, large U.S. defense contractors, the United Nations, foreign governments, and Fortune 100 companies.

Zephyr Aviation, Inc. was founded on a history of aviation related business successes and has been operating continually since 2006. Senior management has been directly involved in the aviation industry for the past 50 years and our company industry knowledge base is even deeper.

The company has a solid foundation of experience and excellence including:

- The highest standard of safety and security
- Mission logistics management
- Dedication to first class premier service
- Experience operating in austere areas and under dangerous conditions
- Managing Western and Eastern aircraft
- Moving outsized and heavy cargo to difficult airports
- Assistance with safety and security audits
- Passenger and cargo air services
- Missions requiring deep logistics resources and confidentiality
- Discrete corporate shuttles
- Project management experts

Zephyr Aviation, Inc. has developed and implemented scheduled Air-Bridge programs originating between Europe and the Middle East, eventually extending back to the United States. Additional forays to various locations in the Middle East have transported tens of thousands of passengers and cargo. These programs increase and enhance security and drastically reduce transport time to theater.

Zephyr Aviation has also undertaken hundreds of individual special missions; some of these programs have ranged in duration from 4 days to 3 weeks and utilized 1 to 4 aircraft simultaneously. Zephyr Aviation can coordinate complicated logistics involving:

- Worldwide precision timing
- High risk regions of operations
- 24/7 mission management
- Meticulous monitoring from beginning to end has ensured 100% success
- Strategic flight planning to maintain mission's low visibility

AIR CHARTER

In today's world, safety and reliability are equally as important as comfort and convenience. Even the most pristine and lavish aircraft means nothing if it is not supported by impeccable service and the highest safety standards. Zephyr Aviation, Inc. is committed to providing reliable, high-quality air charter services that not only meet and exceed clients' expectations but also industry standards.

Backed by over 50 years in the aviation and airline industries, Zephyr Aviation's experience and expertise translate into dependable, competitively-priced air charter services for both corporate and government entities.

- Western and Eastern-Built Fixed Wing aircraft
- Western and Eastern-Built Helicopters
- Large group movements
- VIP charters

CARGO

With an impressive and proven track record of successful operations and a skilled management team, Zephyr Aviation's knowledge and expertise translate into dependable, high-quality cargo services.
